

Hi teams,

Our first league meet starts tomorrow at 1.00 pm. As of that moment you are able to score your matches in the scoring system.

All teams are participating in this League Meet and need to upload their videos and score their games no later than Saturday March 20th 1.00 pm.

The preliminary schedule of March 20 is:

09.00 - 09.30	Opening for all team members, coaches and volunteers Click here to join the opening session
09.30 - 12.30	Judging
09.30 - 13.00	Helpdesk for all your questions Click here to ask your question to the helpdesk
13.00	End of all robot matches
14.00	Announcement winners of the day and closing Click here to join the closing session

Keep in mind the following important points:

1. Time schedules
2. Robot inspections
3. Scoring system
4. Robot matches
5. Judging
6. League meet info - Website FTC

1. Time schedule

Due to various reasons it's not possible for all teams to play the robot games on March 20. Therefore we have decided to adjust the format.

All teams will have the opportunity to play the robot matches during a whole week. You can choose the day and time that suits you best. Starting from Saturday March 13th 1.00 pm until Saturday March 20th 1.00 pm.

Next week your team will receive a time schedule and a MS Teams link for a talk with the judges.

2. Robot inspection

We ask each team to make a video, going over a completed Robot self-inspection checklist. The video should be uploaded between Saturday 13th and Friday March 19th.

Upload to: [ROBOT INSPECTION](#)

You will send a photo/scan of the completed form along with the video. You can also add screenshots of the Robot en Field inspection checklist on the RC and DS phones

Please name your video and photo in the following format:

team no – team name

You can prepare yourself by checking the [Robot](#) and [Field](#) self-inspection Forms.

If rookie teams have difficulty with the self-inspection, this is of course not a problem. On Saturday between 09.30 and 12.30 hours you can contact the helpdesk to help you.

You can also watch the sample videos recorded by teams 10183 and 14183.

<https://www.youtube.com/watch?v=1cAiMGvvUSU>

https://www.youtube.com/watch?v=KsCiX-a_g0I

Team 14183 has uploaded their Dutch robot inspection video on Slack in the - general - Channel

3. **Scoring system**

As this will be a remote event you have to score your robot games yourself in the scoring system. We advise you to practice in advance how this works and watch the instruction videos. You can find the link of the instruction guide and videos on [our website](#) (teams, resources, game, remote scoring system).

The scoring system itself is accessed through your **FIRST Dashboard**, see [the manual](#) for more information. Be aware that in most of the cases this Dashboard can only be accessed by the coach.

Digital scoring will be available starting Saturday, March 13th at 1.00 pm.

If you do not succeed in using the scoring system, it is also possible to manually fill in a score sheet for each match and send a picture to Irene: irene@ftcnetherlands.eu
We will put your scores in the system.

Make sure to put your **Team#** and match# on it before sending the scores.

4. **Robot games**

We ask you to film all your matches in which we can clearly see which points are scored. Preferably in MP4. We need the one video, which is of your highest scored match. Preferably we'd like to receive recordings of every match you've played.

In the name of the video, mention **your match number, team number, team name**;
match no - team no – team name.mp4

Upload to: **MATCH VIDEOS**

Please note: This is a different folder than we shared before!

5. Judging

The judging part is max 10 minutes long.

First 3-5 minutes: Your team will get to talk about the robot, outreach, portfolio etc.

Last 3-5 minutes: Judges will ask questions and help you wherever needed in order to prepare you for the championship judging.

Next week your team will be send a link with the time schedule.

*Note: This league meet judging season is **NOT** part of the Championship judging.*

6. League Meet info - Website FTC

The details for the League Meet are also be published on our website.

Check [the Calendar](#) on our website and click on the info button of the corresponding League Meet.

Just make sure that your team is available on times scheduled for your team.

If you have any more questions during the day, send us a message through slack or ask the helpdesk.
